INTERNSHIP LOG BOOK

Intern Name : kATARIYA RAHUL KANTIBHAI **Position** : FLUTTER DEVELOPER

Wk No	Date (From-To)	Task Assigned	Description of Work / Learnings	Tools/Tech
1	09-12-2025 To 15-12-2025	**Requirement Analysis & Project Setup**	During the first week, the system requirements were gathered and analyzed. Different user roles such as Admin, Doctor, and Patient were identified. Functional and non-functional requirements were defined. The system architecture and database structure were planned. Wireframes for login, registration, and dashboard screens were prepared. The Android project was created, and the development environment was configured successfully.	Android Studio, XML Layout Design, Firebase Firestore (Database Planning), Draw.io (Architecture Design)
2	16-12-2025 To 22-12-2025	**UI Development & Authentication Module**	Login and registration screens were developed with proper input validation. Separate dashboards were created for Admin, Doctor, and Patient. User authentication and account management features were implemented. Navigation between activities was integrated using intents. Error handling and session management were tested.	Java/Kotlin, XML, Firebase Authentication, Android Intents
3	23-12-2025 To 29-12-2025	**Patient, Doctor & Appointment Module Development**	The Patient Management module was developed to register and manage patient details. The Doctor Management module was created to store doctor profiles and specialties. The Appointment Booking system was implemented to allow patients to select doctors and book appointments using date and time pickers. Data was connected and synchronized with the cloud database.	Firebase Firestore, RecyclerView, DatePicker, TimePicker, Java/Kotlin
4	30-12-2025 To 05-01-2026	**Medical Records & Billing System Development**	The Medical Records module was implemented to store patient diagnosis and treatment history. A Billing system was developed to calculate consultation fees and generate billing details. Role-based access control was added to restrict user permissions. CRUD operations were tested for all modules. User interface enhancements were applied following Material Design principles.	Firebase SDK, Java/Kotlin, Material Design Components, Firestore Security Rules
5	06-01-2026 To 08-01-2026	**Testing, Integration & Documentation**	Unit testing was performed on individual modules. Integration testing was conducted after combining all modules. Bugs and runtime errors were identified and resolved. Database queries were optimized for better performance. Final project documentation and report preparation were completed.	Android Emulator, Logcat, Firebase Optimization Tools, MS Word
